

A

AAPC (Average annual percent change), definition 16, 20
 Acute lymphoblastic leukemia (ALL) 40, 175
 Acute myeloid leukemia (AML) 40, 41, 183
 Acute non-lymphocytic leukemia 198
 Adenomatous polyposis 124, 130, 132, 136, 139, 151
 Adult care specialists, compared to pediatric specialists 182, 183
 Age-adjusted rate, definition 20
 Age-specific rate, definition 20
 Anus, cancer of 125
 Astrocytoma 3, 17, 66-68, 70, 72, 75, 76, 79, 80, 198
 Average annual percent change (AAPC), definition 16, 20

B

Beckwith-Wiedeman Syndrome 82, 93
 Benign melanocytic nevi, association with melanoma 61
 Bile duct tumors 136-138, 140
 Bone cancer (see malignant bone tumors)
 Bone sarcoma (see malignant bone tumors)
 Brain tumors 17, 66, 69, 70, 78-80, 131, 199
 BRCA1 and BRCA2 tumor suppressor genes 170
 Breast cancer 2, 6, 12, 93, 111-121
 classification 113
 incidence 112-114
 mortality 112, 114-116
 risk factors 112, 118
 survival 112, 116-117
 Burkitt lymphoma 27-30, 35, 36, 198

C

Calculation of rates, method of 19
 Case-control study, definition 20
 Central nervous system (CNS) cancers 7, 19, 21, 65-80
 classification 67-69
 incidence 69-73
 mortality 73, 74
 neoplasms, definition 67
 risk factors 78, 79
 secondary CNS neoplasms 79
 survival 74-77
 Cervical carcinoma 2, 12, 164, 166, 168-171, 174, 175
 squamous cell 18, 167, 171

 adenocarcinoma 12, 171
 Cervical dysplasia 171
 screening for 171
 Challenges, prioritization of 180, 181
 awareness 175, 177, 178, 180, 181, 184, 196, 197
 clinical trials 175, 177, 179, 181, 183-186
 health insurance 175, 177, 178, 180-186
 translational research 175, 177, 179, 181, 184
 Children's Oncology Group (COG) vi-vii, 176, 183, 185, 196
 Chondrosarcoma 83, 87, 98-107
 classification of types 83, 99
 histology, specific rates for 100
 frequent sites of 102, 104
 Choriocarcinoma 156, 160, 162
 Chromosomal abnormalities
 bone (see malignant bone tumors)
 breast cancer 112, 118, 119
 central nervous system 78, 79
 colorectal 129-131
 female genital tract 170
 leukemia 40, 44, 49, 50
 malignant bone tumors 98, 105
 melanoma 54, 61
 soft tissue sarcoma 82, 93
 thyroid 150-152
 Chronic myeloid leukemia (CML) 41, 198
 Classification systems, definition 3, 17-19
 Clinical trials 42, 75, 78, 80, 91, 115, 170, 175-187
 Cohort study, definition 20
 Colonic polyps 129, 130
 Colorectal cancer 123-132
 classification 124, 125
 incidence 125, 126
 mortality 126, 127
 risk factors 128-131
 survival 127, 128
 Congenital diseases as risk factor, by disease
 leukemia 40, 44, 49
 liver 139
 soft tissue sarcoma 93
 thyroid 151, 152
 Cowden's syndrome (PTEN) 112, 118, 119
 Cryptorchidism 156, 171
 Cutaneous lichen amyloidosis 152

D

- Death rates (see mortality)
- Death rates, definition 21
- Dermatofibrosarcoma 83, 87
- Diffuse cell lymphoma 29, 30
- Diffuse lymphoblastic lymphoma 27
- DNA mismatch repair genes, mutations of 49, 129
- Down syndrome, association with ALL 44, 49
- Ductal, Lobular, and Medullary Neoplasms 113
- Dysplastic nevi, association with melanoma 61-62

E

- Early detection, suggestions for enhancement of 186
- Embryonal sarcoma 82, 83, 86-88, 90, 94, 199
- Ependymoma 66, 68, 70, 77, 79, 198
- Epstein-Barr virus (EBV) 2, 12, 175
 - as risk factor for Hodgkin lymphoma 35, 36
- Erythema, acute 41
- Estrogen-receptor negative tumors 119
- Etiology, multifactorial, definition 22
- Event-free survival (EFS) 42
- Ewing sarcoma 87, 89, 98-107
 - classification of types 99
 - family of tumors 99, 102
 - histology specific rates for 100
 - frequent sites of 99, 104

F

- Familial breast cancer 118
- Familial medullary thyroid carcinoma (FMTC) 144-145, 149, 152
- Familial melanomas 60-61
 - and CDKN2A gene mutations 54, 61
- Female genital tract cancer 163-172
 - classification 164, 165
 - incidence 165-168
 - mortality 168
 - risk factors 169-171
 - survival 169
- Fibrosarcoma 83, 85, 87, 199
- Follicular thyroid carcinoma (FTC) 144-146, 149
 - classification of 145
 - variants of 145

- Follicular lymphoma 29, 37
- Follow-up, SEER 21
- Frequency distribution of cancer types, changes in 2, 12, 13, 174, 175

G

- Generalized ganglioneuromatosis 152
- Genetic syndromes as risk factors
 - bone (see malignant bone tumors)
 - breast 118, 119
 - central nervous system 78
 - colorectal 128-131
 - female genital tract 169, 170
 - leukemia 48, 49
 - liver and intrahepatic bile duct cancers 139, 140
 - lymphoma 35, 36
 - male genital tract 161
 - malignant bone tumors 105, 106
 - melanoma 60, 61
 - soft tissue sarcoma 93
 - thyroid 151, 152
- Germ cell tumor
 - central nervous system 67
 - genetic marker for 158
 - non-gonadal 2, 6, 12
 - ovarian 164-166, 171, 199
 - testicular 157, 160, 161, 199
- Glioblastoma multiforme 131
- Gliomas, “other” 66
 - definition of 66, 76
 - types of 67, 68
- Gonadal neoplasms 165, 199
- Greaves’ hypothesis 50

H

- Hamartomatous polyposis 124, 129, 132
- Helicobacter pylori infection 26, 36
- Hepatic carcinomas 135-142
- Hepatitis B immunization related to liver cancer prevention 139, 140
- Hepatoblastoma, known risk factors for 130, 139
- Hepatocellular carcinoma 135-142
- Hereditary nonpolyposis colon cancer (HNPCC) 128
- Histiocytoma, malignant fibrous 87, 99

Hodgkin lymphoma 24-38, 198
 radiation therapy as risk factor for breast cancer 112, 119

Human immunodeficiency virus (HIV) 2, 12
 and Kaposi's sarcoma 5, 83, 84, 90, 93
 and progression of HPV 2, 12, 174
 as risk factor for Hodgkin and non-Hodgkin lymphoma 5, 7, 26, 35-37, 174-176

Human papillomavirus (HPV) 164, 170, 171, 174, 175

Hutchinson melanotic freckle 55

Hyperdiploidy, association with ALL 41

Hyperparathyroidism 152

I

ICCC Classification 17-19

ICCC Table 198, 199

ICD Classification 3, 21

ICD-O Classification 17-19

Incidence, definition 21

Incidence, by disease

- bone cancer (see malignant bone tumors)
- bone sarcoma (see malignant bone tumors)
- brain and spinal cord cancers (see central nervous system)
- breast cancer 112-114
- central nervous system 69-73
- cervical carcinoma (uterine cervix) (see female genital tract)
- colorectal 125-126
- female genital tract 165-168
- introductory summary of 4, 5
- leukemia 42-46
- liver and intrahepatic bile duct cancers 137, 138
- lymphoma 27-31
- male genital tract 158, 159
- malignant bone tumors 100-102
- melanoma 55-58
- ovarian cancer (see female genital tract)
- soft tissue sarcoma 84-89
- testicular carcinoma (see male genital tract)
- thyroid 146-148

Inflammatory bowel disease 128, 131

Intergroup Consortium Against Sarcoma (ICAS) 185

Intergroup Rhabdomyosarcoma Study Group 88

International Classification of Childhood Cancers (see ICCC classification)

International Classification of Diseases (see ICD classification)

International Classification of Diseases for Oncology (see ICD-O classification)

Intracranial germ cell tumor 157, 164, 198

Intraspinal tumors 67, 69, 157, 164, 198

Introduction to adolescent and young adult cancers 2-14

- highlights 2
- incidence 4, 5
- mortality 8, 9
- risk factors 11, 12

Invasive cancer 2, 4-6, 8, 9, 12, 17, 21, 84, 85, 165, 166, 171, 174, 175, 194

Ionizing radiation as risk factor

- CNS tumors 66, 78, 80
- malignant bone tumors 98, 105
- soft tissue sarcoma survivors 94
- thyroid cancer 144, 150, 152

K

Kaposi sarcoma 82-94
 and human immunodeficiency disorder (HIV) 83, 84, 90, 93

L

Lag time, definition 182
 influences on 182

Leiomyosarcoma 83, 86

Leukemia 40-51

- classification 41
- incidence 42-46
- mortality 46
- risk factors 48-50
- survival 47, 48

Leydig and Sertoli cell tumors 157, 165

Li-Fraumeni Syndrome

- and bone cancer 98, 105
- and breast cancer 112, 118
- and CNS tumors 79
- and soft tissue sarcomas 82, 93

Liver cancers 136-140

- classification 137
- incidence 137, 138
- mortality 138
- risk factors 139, 140
- survival 138

LiveStrong™ Young Adult Alliance 186, 196
 Lymphoid leukemia 41
 Lymphoma 26-37
 classification 27
 incidence 27, 31
 mortality 32
 risk factors 35-37
 survival 33-35
 Lymphoproliferative syndrome 41
 Lymphoreticular neoplasms, miscellaneous 27

M

Male genital tract cancer 156-162
 classification 156-158
 incidence 158, 159
 mortality 159, 160
 risk factors 160, 161
 survival 160
 Malignant bone tumors 98-107
 classification 99
 incidence 100-102
 mortality 103
 risk factors 105, 106
 survival 103-105
 Mantle cell lymphoma 29, 37
 Marfucci's syndrome 98, 106
 Medullary thyroid carcinoma (MTC) 144-147, 149, 152
 and hereditary cancer syndromes 152
 classification of 146
 Melanoma 54-61
 classification 55
 incidence 55-58
 mortality 58
 risk factors 59-61
 survival 59
 Melanosis 55, 60
 MEN2A 149, 152
 MEN2B 149, 152
 Mesenchymal cell soft tissue sarcoma 82, 86
 Microsatellite instability 125, 129
 Mortality
 definition 8
 sources of data 16, 18, 19, 21
 Mortality, by disease

bone cancer (see malignant bone tumors)
 bone sarcoma (see malignant bone tumors)
 brain and spinal cord cancers(see central nervous system)
 breast cancer 114-116
 central nervous system 73, 74
 cervical carcinoma (uterine cervix) (see female genital tract)
 colorectal 126, 127
 female genital tract 168
 introductory summary of 8, 9
 leukemia 46
 liver and intrahepatic bile duct cancers 138
 lymphoma 32
 male genital tract 159, 160
 malignant bone tumors 103
 melanoma 58
 ovarian cancer (see female genital tract)
 soft tissue sarcoma 89, 90
 testicular carcinoma (see male genital tract)
 thyroid 148
 Muir's syndrome 112, 118, 119
 Myelodysplastic syndrome 41

N

National Center for Health Statistics 16, 18, 21
 Nerve sheath tumor, malignant peripheral 69, 83
 Neurofibroma 83
 Neurofibromatosis 49
 Neurofibrosarcoma 83
 Nevi, Nevus 55, 60-62
 Nodular sclerosing lymphoma 27, 36
 Non-Hodgkin lymphoma (NHL) 26-37, 198

O

Osteosarcoma 98-102, 104, 105, 107
 classification of types 99, 100
 frequent sites of 102, 104
 histology-specific rates for 100
 known risk factors for 105
 Ovarian carcinoma 164-171
 Ovarian germ cell tumor 164-166, 171

P

- Papillary thyroid carcinoma (PTC) 144-152
 - as a familial disease 151
 - classification of 146
 - genetic and molecular basis of 151
 - variants of 145
- Pap smears 171
- Pediatric specialists, compared to adult care specialist 178, 179, 183, 184
- Peripheral neuroectodermal tumors 88, 89
- Pheochromocytoma 152
- Polypoid and non-polypoid syndromes 124, 128-130
- Population-based data 18, 19, 21, 132
 - estimates, sources of 16, 18-21
- Primitive neuroectodermal tumors (PNET) 66, 68-70, 72, 76-78, 80

R

- Race/ethnicity, definition 21, 22
- Rectal cancer 124-132
- Reed-Sternberg 35, 36
- Relative risk, definition 22
- Relative survival rate, definition 10, 21
- RET proto-oncogene, mutations of 144, 145, 152
- Rhabdomyosarcoma (RMS) 82, 83, 86-88, 90, 94
- Risk factors, definition 22
- Risk factors, by disease
 - bone cancer (see malignant bone tumors)
 - bone sarcoma (see malignant bone tumors)
 - brain and spinal cord cancers (see central nervous system)
 - breast cancer 118, 119
 - central nervous system 78, 79
 - cervical carcinoma (uterine cervix) (see female genital tract)
 - colorectal 128-131
 - female genital tract 169-171
 - introductory summary of 11, 12
 - leukemia 48, 49
 - liver and intrahepatic bile duct cancers 139, 140
 - lymphoma 35-37
 - male genital tract 160, 161
 - malignant bone tumors 105, 106
 - melanoma 59-61
 - ovarian cancer (see female genital tract)
 - soft tissue sarcoma 93, 94
 - testicular carcinoma (see male genital tract)
 - thyroid 150-152

S

- Sarcomas
 - bone 98-107
 - soft tissue 82-95
- Second malignant neoplasms 12, 82, 94, 95
- Secondary CNS neoplasms 79
- SEER site recode 3, 6, 16-18, 27, 55, 83, 113, 124
- SEER*Stat 19, 20
- Seminoma 156, 157, 160, 162
- Skin 3, 54, 55, 57, 62
- Soft tissue sarcomas 82-95
 - classification 83
 - incidence 84-89
 - mortality 89, 90
 - risk factors 93, 94
 - survival 90-93
- Solar/ultraviolet radiation as risk factor for melanoma 61, 62
- Surveillance, Epidemiology and End Results (SEER)
 - development background 18
 - data sources for 16-19
- Survival improvement, lack of progress
 - in adolescent and young adult cancers 2, 3, 174, 176, 180
 - related to family and community 177, 178
 - related to health professionals 177-180
 - related to patient concerns 177, 178
 - related to society and culture 177, 180
 - suggested reasons for 176-180
 - suggested solutions to 180-182
- Survival
